RDSO conducts Aurora Mapping

With the initiative of DHVTSU-RDSO headed by Research Dir. Benigno P. Legamia, and in partnership with the Department of Science and Technology Region III and the Aurora Government, selected COE faculty members namely Dir. Gloria B. Gigante, Mrs. Dynah D. Soriano and Mrs. Janice M. Martinez together with Engr. Edgar Santos and Prof. Adriano Singian were assigned to be part of the "Data Gathering and Mapping of the Province of Aurora" last December 10-13, 2012.

One of the identified needs of the **Provincial Government** is how to make the most of renewable energy sources to produce low-cost energy and how to enhance and sustain women participation in development particularly in technology development, manpower and development of a pool of skilled workers to increase productivity.

DOST-III and DHVTSU confirmed the necessity of partnership in developing, implementing and managing technical assistance program through the proposed "Women Empowerment thru

Comprehensive Advocacy on Renewable Energy for Aurora (WE CARE for AURORA) that will respond to the technology and associated needs of the Provincial Government;

DHVTSU undertakes research, extension and training services as well as production activities and is interested in linking up with various organizations in support of the socio-economic and technological development of the country and provide progressive leadership in its areas of specialization.
